Pool cover tarp – Factory wholesale

Pool cover tarp has UV resistance, tear resistance, durability, 100% waterproof and other characteristics, can defend sunlight exposure, prevent the square and deterioration of the pool water. Pool cover is a must for swimming pools, and it can both prevent insects, branches, leaves and other pollution of the pool water, reduce maintenance costs, and avoid your family being fallen and drowned.

 Anti-ultraviolet

 Super Tear Resistance

 Good tensile strength

 can defend sunlight exposure

Alkali resistance:

The structure of PVC fabric is very perfect, the upper and lower surfaces are very smooth, the film and polyester base fabric have formed molecular bonds, which are tightly combined and completely resistant to alkali, so that it can be used to store alkaline-containing substances or solutions.

UV resistant:

The GSTARP PVC tarps are all UV-protected, which is a very important feature for it, by taking into account the surface and coating, it consists of a 6-layer barrier against UV rays.

100% waterproof:

GSTARP are 100% waterproof, in which the special surface treatment is the first step of PVC fabric defense, to ensure that no water molecules can penetrate, followed by the upper and lower surface layer and the basic completely combined to form a whole. Finally, through the base fabric coating glue, glue and coating molecular bonding, through the above three steps cash technology, GS PVC vinyl is 100% waterproof.

▶▶ Choosing the Right Pool Cover Tarp for Seasonal Protection ▶▶

Choosing the right Pool Cover Tarp is essential for protecting your swimming pool:

- ▶ Select a high-strength, durable, and UV-resistant Pool Cover Tarp. This will protect the pool from strong sunlight, rain, snow, and various contaminants such as branches and leaves.
- ▶ Measure the pool's dimensions and allow extra space around the edges to ensure the Pool Cover Tarp fits properly and is easy to secure.
- ▶ Use a fixed-link system with stakes and washers around the pool for easy installation of the Pool Cover Tarp. This will ensure the cover stays in place during strong winds, providing reliable protection.
